

Material Safety Data Sheet

Section 1: Product and Company Information

Product Name Coadd™ DF-6066

Product Use Defoamer

Company Name Polywill (Shanghai) Advanced Material Co., Ltd.

Street Address No 3399, Kang-Xin Highway, Building 17. Pudong

District, Shanghai, China

Telephone +86-21-20965181 **Fax** +86-21-20965197

Emergency response Information +86-21-20965181

Section 2: Hazard Identification

Emergency Overview

Physical Appearance Liquid

Colour Clear to light yellowish

Odour Of ketone
Water solubility Insoluble

Potential Health Effects

Immediate Concerns Flammable, maybe harmful by inhalation

Eves Irritating to eyes upon contact

Skin Maybe irritating to eyes upon contact

Ingestion No harmful effects have been reported upon

ingestion

Maybe harmful by inhalation

Inhalation Eyes, Skin, Inhalation

Primary routes of entry

Eyes, Skin, Respiratory

Target organs

•

Section 3: Composition/Information on Ingredients

Substance / Mixture: Mixture

Chemical Nature Solution of modified polysiloxanes

Other Components	CAS	Concentration (%)
Isophorone	78-59-1	>90 - <100

Section 4: First-aid Measures

Eyes Flush eye(s) for 15 minutes or more; if irritation

persists, consult a physician (preferably an eye

specialist) and show MSDS.

Skin In case of contact with skin wash off immediately

with soap and water. Consult a doctor if skin

irritation persists.

Ingestion Do not induce vomiting. Seek medical advice

immediately and show this data sheet.

Inhalation Ensure supply of fresh air. In the event of

symptoms, seek medical treatment.

General Advice Remove soiled or soaked clothing immediaty

Section 5: Fire-fighting Measures

Extinguishing media: Use extinguishing media (foam, CO₂, dry chemical)

appropriate for surrounding fire.

Specific hazards during

firefighting:

In the event of fire the following can be released: - Carbon

monoxide, carbon dioxide, silicon dioxide

Special protective equipment for

As in any fire, wear self-contained breathing apparatus pressure-demand, (MSHA/NIOSH approved or equivalent)

firefighters: and full protective gear.

Section 6: Accidental Release Measures

Personal precautions: Do not contact with eyes or skin directly. Wear proper personal

protective clothing, gloves and equipment. Keep people away

from and upwind of spill.

Environmental Do not flush liquid into public sewer, water system or surface

precautions: waters

Clean up: Contain spills immediately with inert sand or earth materials.

Transfer liquids and solid material to separate suitable

containers for recovery or disposal.

Other information: This product may cause the floor to be slippery.

Section 7: Handling and Storage

Handling: Keep container tightly closed. Do not breathe vapors, mist or

gas. Avoid contact with eyes, skin and clothing. Wash thoroughly

after handling.

Storage: Keep container tightly closed and dry in a cool, well-ventilated

place

Section 8: Exposure Controls/Personal Protection

Exposure limits: Exposure limits are listed, if they exist.

Exposure Controls

Engineering controls: Use local exhaust ventilation with a minimum capture velocity

of 100 ft/min. (0.5 m/sec.) at the point of vapor evolution. Refer to the current edition of Industrial Ventilation: A Manual of Recommended Practice published by the American

Conference of Governmental Industrial Hygienists for information on the design, installation, use, and maintenance

of exhaust systems.

Protective measures: Facilities storing or utilizing this material should be equipped

with an eyewash facility.

Individual protection

measures

Eye/face protection: Safety glasses with side-shields Eye protection worn must be

compatible with respiratory protection system employed.

Skin protection: The glove(s) listed below may provide protection against permeation.

Polywill (Shanghai) Advanced Materials Co., Ltd

Coadd™ DF-6066

(Gloves of other chemically resistant materials may not provide

adequate protection): Neoprene gloves

Respiratory protection: Use certified respiratory protection equipment meeting EU

requirements(89/656/EEC, 89/686/EEC), or equivalent, when respiratory risks cannot be avoided or sufficiently limited by technical means of collective protection or by measures, methods

or procedures of work organization.

Section 9: Physical and Chemical Properties

Appearance Liquid

Colour Clear to light yellowish

OdorMildDensity(g/ml)0.9Flash point($^{\circ}$ C)84

Viscosity(25°C) < 300 mPa.s

Boiling point(°C) 215 Melt piont°C -8.1

Odor threshold No mearsured pH Not applicable

Water solubility Insoluble

Lower explosion limit Not applicable
Upper explosion limit Not applicable

NOTE: The physical data above are only typical values and not be constitute specification.

Section 10: Stability and Reactivity

Stability The materials considered are stable

Substances to avoid Acids, bases, and strong oxidizing agents

Hazardous reactions No hazardous reactions with proper storage and handling.

Polymerization Product will not undergo polymerization.

Hazardous decomposition

products None with proper storage and handling

Section 11: Toxicological Information

Acute toxicity

Oral:
Inhalation:
No data available
No data available
No data available
No data available
Skin:
No data available
Eye irritation:
No data available
Sensitization:
No data available
No data available
No data available

Mutagenicity

Reproductive Cell

No data available

Mutagenicity:

Specific Target Organ Systemic Toxicity (Single No data available

Exposure)

Specific Target Organ

Systemic Toxicity (Repeated Exposure)

No data available

Aspiration Hazard

No data available

Section 12: Ecological Information

Acute aquatic toxicity

Acute toxicity to fish: No data available

Acute toxicity to aquatic

No data available

invertebrates:

Acute toxicity to algae: No data available
Acute toxicity to bacteria: No data available

Chronic aquatic toxicity

Chronic toxicity to fish:No data availableChronic toxicity toNo data available

aquatic invertebrates:

Toxicity to soil-dwelling No data available

organisms:

Toxicity to terrestrial

nlante:

estrial No data available

plants:

Toxicity to other nonmammalian terrestrial No data available

species:

Persistence and Degradability

Biodegradability: No data available
Physico-chemical No data available

removability:

Bioaccumulative Potential

Bioaccumulation: No data available

Mobility in Soil

Partition coefficient: n-

No data available

octanol/water:

Distribution among

No data available

environmental compartments:

Fate and behavior in the

environment:

No data available

Section 13: Disposal Considerations

Environmental Keep spills and cleaning runoff out of municipal sewers and

precautions: open bodies of water.

Disposal: For disposal, incinerate or landfill at a permitted facility in

accordance with local regulations.

Section 14: Transport Information

Classification for ROAD and Rail transport:

Not regulated (Not dangerous for transport)

Classification for SEA transport (IMO-IMDG):

Not regulated (Not dangerous for transport)

Classification for AIR transport (IATA/ICAO):

Not regulated (Not dangerous for transport)

Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations

Section 15: Regulatory Information

China. Inventory of Existing Chemical Substances in China (IECSC):

All intentional components in this product are either listed on the

Inventory of Existing Chemical Substances in China (IECSC) or approved for exemption. Production and/or use is limited by the conditions of the exemption.

United States TSCA Inventory (US.TSCA):

All components of this product are produced in compliance with the requirements of the U.S. Toxic Substances Control Act (TSCA) and are either listed on or are exempt from listing on the Inventory.

Provisions on the Environmental Administration of New Chemical Substances. General rule of classification and hazard communication of chemicals

Law on Prevention and Control of Environmental Pollution Caused by Solid Waste.

Section 16: Other Information

Hazard Rating System.
