

## **Material Safety Data Sheet**

Product name: Coadd™ W-6138

Revision Date: 20.12 2023

Version:1.3

Date Issued: 14, 01.2022

### **Section 1: Product and Company Information**

Product Name Coadd™ W-6138

Product Use Wetting Agent

Company Name Polywill (Shanghai) Advanced Material Co., Ltd.

Street Address Polywill (Shanghai) Advanced Material Co., Ltd.

No 3399, Kang-Xin Highway, Building 17. Pudong

District, Shanghai, China

**Telephone** +86-21-20965181 **Fax** +86-21-20965197

Emergency response Information +86-21-20965181

#### **Section 2: Hazard Identification**

**Emergency Overview** 

Physical Appearance Liquid

**Colorless** to light yellow semi-transparent

**Odour** Mild

Water solubility Miscible

**Potential Health Effects** 

**Immediate Concerns** 

Eyes No harmful effects have been reported upon

contact with eyes.

Skin No harmful effects have been reported upon

contact with skin.

Ingestion No harmful effects have been reported upon

ingestion.

Inhalation No harmful effects have been reported upon

inhalation.

#### **Primary routes of entry**

### Section 3: Composition/Information on Ingredients

Substance / Mixture: Polymer

**Chemical Nature** 100% Polyether modified siloxane polymer

#### **Section 4: First-aid Measures**

**Eyes** Flush eye(s) for 15 minutes or more, and keep eye wide

open while rinsing. If irritation persists, consult a physician

(preferably an eye specialist) and show MSDS.

**Skin** Wash off with of water. In case of symptom, please visit

doctor.

**Ingestion** Induce vomiting and call physician. Do not give milk or

alcohol to victim. Obtain medical attention in case of

symptom.

**Inhalation** Move to fresh air. If unconscious, place in recovery

position. Obtain medical attention.

General Advice Remove soiled or soaked clothing immediately

## **Section 5: Fire-fighting Measures**

**Extinguishing media:** Use extinguishing media (Foam, CO<sub>2</sub>, dry chemical)

appropriate for surrounding fire.

Specific hazards during

firefighting:

Do not allow contaminated water to enter drains or any water sources. Hazardous combustion products may

contain: Carbon oxides, silicone compounds,

formaldehyde.

Special protective equipment for

equipment for firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, (MSHA/NIOSH approved or equivalent)

and full protective gear.

#### **Section 6: Accidental Release Measures**

**Personal precautions:** Do not contact with eyes or skin directly. Wear proper personal

protective clothing, gloves and equipment. Keep people away

from and upwind of spill.

**Environmental** Do not flush liquid into public sewer, water system or surface

precautions: waters

**Clean up:** Contain spills immediately with inert sand or earth materials.

Transfer liquids and solid material to separate suitable

containers for recovery or disposal.

**Other information:** This product may cause the floor to be slippery.

## **Section 7: Handling and Storage**

**Handling:** Keep container tightly closed. Do not breathe vapors, mist or

gas. Avoid contact with eyes, skin and clothing. Wash

thoroughly after handling. No smoking, drinking and eating in application area. Supply sufficient air exchange in application

area.

**Storage:** Keep container tightly closed and dry in a cool, well-ventilated

place. Reseal and store in upright position when not using. Separation and turbidity may occur when temperature is below 10°C, please warm up and mix well before use. Product

performance would not be affected upon freezing.

## **Section 8: Exposure Controls/Personal Protection**

#### **Exposure limits:**

Exposure limits are listed, if they exist.

**Exposure Controls** 

**Engineering controls:** Use local exhaust ventilation with a minimum capture

velocity of 100 ft/min. (0.5 m/sec.) at the point of vapor evolution. Refer to the current edition of Industrial

Ventilation: A Manual of Recommended Practice published by the American Conference of Governmental Industrial Hygienists for information on the design, installation, use,

and maintenance of exhaust systems.

**Protective measures:** Facilities storing or utilizing this material should be

Coadd™ W-6138

equipped with an eyewash facility.

Individual protection

measures

**Eye/face protection:** Safety glasses with side-shields Eye protection worn must

be compatible with respiratory protection system employed.

**Skin protection:** The glove(s) listed below may provide protection against

permeation. (Gloves of other chemically resistant materials may not provide adequate protection): Neoprene gloves

**Respiratory protection:** Use certified respiratory protection equipment meeting EU

requirements (89/656/EEC, 89/686/EEC), or equivalent, when respiratory risks cannot be avoided or sufficiently limited by technical means of collective protection or by measures, methods or procedures of work organization.

### **Section 9: Physical and Chemical Properties**

Appearance Liquid

**Colorless** to light yellow semi-transparent

Odor Mild

**Density** 0.98 (g/ml)

Boiling point No data available

Flash point( $^{\circ}$ C) >100 $^{\circ}$ C

pH No data available
Viscosity <500 (25℃,mPas)
Evaporation rate No data available
Odor threshold No data available

Water solubility Miscible

Lower explosion limitNo data availableUpper explosion limitNo data availableVapour pressureNo data availableRelative vapor densityNo data availableIgnition temperatureNo data availableDecompositionNo data available

temperature

Non-volatile content >93% (105°C, 30min)

NOTE: The physical data above are only typical values and not constitute specification.

### **Section 10: Stability and Reactivity**

**Stability** The materials considered are stable

Substances to avoid Strong oxidizing agents

**Hazardous reactions**No hazardous reactions with proper storage and handling.

**Polymerization** Product will not undergo polymerization.

**Hazardous decomposition** 

**products** None with proper storage and handling

### **Section 11: Toxicological Information**

Note:

Proper use provided, no adverse health effects have been observed or have been come to our knowledge. Eye contact may produce an oil film over the eye-ball causing a harmless

reversible shortlasting dimness of sight.

## **Section 12: Ecological Information**

Acute aquatic toxicity

Acute toxicity to fish: No data available

Acute toxicity to aquatic No data available

invertebrates:

Acute toxicity to algae: No data available
Acute toxicity to bacteria: No data available

Chronic aquatic toxicity

Chronic toxicity to fish: No data available
Chronic toxicity to No data available
aquatic invertebrates:

Toxicity to soil-dwelling

organisms:

No data available

Toxicity to terrestrial No data available

plants:

Toxicity to other nonmammalian terrestrial No data available

species:

Persistence and Degradability

Biodegradability: No data available
Physico-chemical No data available

removability:

**Bioaccumulative Potential** 

Bioaccumulation: No data available

**Mobility in Soil** 

Partition coefficient: n-

No data available

octanol/water:

Distribution among

No data available

environmental compartments:

Fate and behavior in the

No data available

environment:

**Further ecological** 

information:

Do not allow to enter soil, waterways or waste water canal.

# **Section 13: Disposal Considerations**

Environmental Keep spills and cleaning runoff out of municipal sewers and

**precautions:** open bodies of water.

**Disposal:** For disposal, incinerate or landfill at a permitted facility in

accordance with local regulations.

# **Section 14: Transport Information**

**UN Number** 

Not regulated as a dangerous good

**Classification for ROAD and Rail transport:** 

Not regulated (Not dangerous for transport)

**Classification for SEA transport (IMO-IMDG):** 

Not regulated (Not dangerous for transport)

Classification for AIR transport (IATA/ICAO):

Not regulated (Not dangerous for transport)

Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations

## **Section 15: Regulatory Information**

#### China. Inventory of Existing Chemical Substances in China (IECSC):

All intentional components in this product are either listed on the Inventory of Existing Chemical Substances in China (IECSC) or approved for exemption. Production and/or use is limited by the conditions of the exemption.

#### **United States TSCA Inventory (US.TSCA):**

All components of this product are produced in compliance with the requirements of the U.S. Toxic Substances Control Act (TSCA) and are either listed on or are exempt from listing on the Inventory.

Provisions on the Environmental Administration of New Chemical Substances. General rule of classification and hazard communication of chemicals

Law on Prevention and Control of Environmental Pollution Caused by Solid Waste.

#### **Section 16: Other Information**

#### Hazard Rating System.

#### **HMIS**
